

Dear Member of the National Council of Deans of Engineering and Applied Sciences:

The Canadian Engineering Education Association (CEEA) is the premier organization in Canada for presenting research and disseminating best practices in engineering education. We are a growing organization that will be holding our sixth annual conference this year.

To help keep Canada on the forefront of engineering education in the world, we are looking for your support. The CEEA from its inception has had institutional members. **This year we are adding a Dean's Program to our institutional membership.** Your institutional membership fee will now provide you with a place on our institutional members list and a membership to CEEA for a new faculty member. This membership can be used for an early career person, or someone later in their career, who has not yet been part of the CEEA community. It is an opportunity to ensure that your faculty are accessing this dynamic community of people who have a deep interest in the way we are educating the next generation of Canadian Engineers.

Thanks to the feedback and involvement of our membership, we have made significant strides over the past year, including:

- Establishing a Research Collaboration Group
- Establishing social media connectivity for CEEA members
- Developing additional Membership Benefits
- Enhancing our website to include secure membership and conference payment

Over the coming year we are looking forward to:

- An exciting Conference in Hamilton, ON (May 31 to June 3) that will reflect our association's growth
- Growing our research collaboration opportunities
- Enhancing membership benefits

By renewing your CEEA membership, you provide support and have the opportunity to actively contribute to these and other initiatives. Our secure website now allows for online payments, and we are excited to have it fully functioning for this year's renewals and conference registration.

Visit <https://ceea.ca/en/membership/>.

If you prefer, we still accept cheques made out to The Canadian Engineering Education Association. If you require an invoice prior to payment, please let our head office know and we will send one to you right away. Once again thank you for your support!

Prof. Susan McCahan
President, CEEA
