

Engineer of Tomorrow

Innovation, Sustainability, and Ethics in a Constantly Evolving World
Montréal, Québec - June 17 – 21, 2025

About CEEA-ACÉG

The Canadian Engineering Education Association (CEEA-ACÉG) is a membership driven organization whose mission is to “enhance the competence and relevance of graduates from Canadian Engineering schools through continuous improvement in engineering education and design education.”

CEEA-ACÉG Annual Conference: Engineer of Tomorrow

L'École Polytechnique de Montréal invites you to take part in the 2025 CEEA-ACÉG Conference to share innovative ideas for the education and training of the upcoming engineers of tomorrow.

The conference provides delegates opportunities to discuss, develop and present their research in Canadian engineering education and participate in dynamic and collaborative sessions.

Conference Theme and Key Elements

Participate in the essential process of reflection on the aspirations of the next generation. Contribute to better understand the challenges we face, how we can respond more effectively in our training and in turn help shape a better future in which engineering will play a key role in creating a sustainable, equitable and inclusive society.

Event Attendance

Event reach: Over the course of five days, over 300 forward-thinking individuals from engineering education faculty, higher education administration, industry professionals, K-12 allies, as well as graduate and undergraduate student delegates, will come together to represent 50 engineering universities from across Canada.

Event goals: To bring together Canada's partners in engineering education: industry, engineering professors, students, government, Indigenous communities, professional societies and regulatory organizations, practitioners, non-engineering programs, K-12 teachers, and researchers.

Target audience: Canadian engineers, industry professionals, undergraduate and graduate engineering students, engineering professors and researchers and K-12 teachers.

Become a CEEA-ACÉG 2025 Sponsor

As a contributor you will reach a network of influencers, decision-makers, and likeminded engineering leaders and support the shift in engineering education to:

- Enhance sustainable design offerings in academia
- Develop engineering design education
- Develop entrepreneurship education in engineering programs
- Improve diversity and inclusivity informed teaching practices
